# The Figura concept

8 shapes - 15 qualities - 370 colours

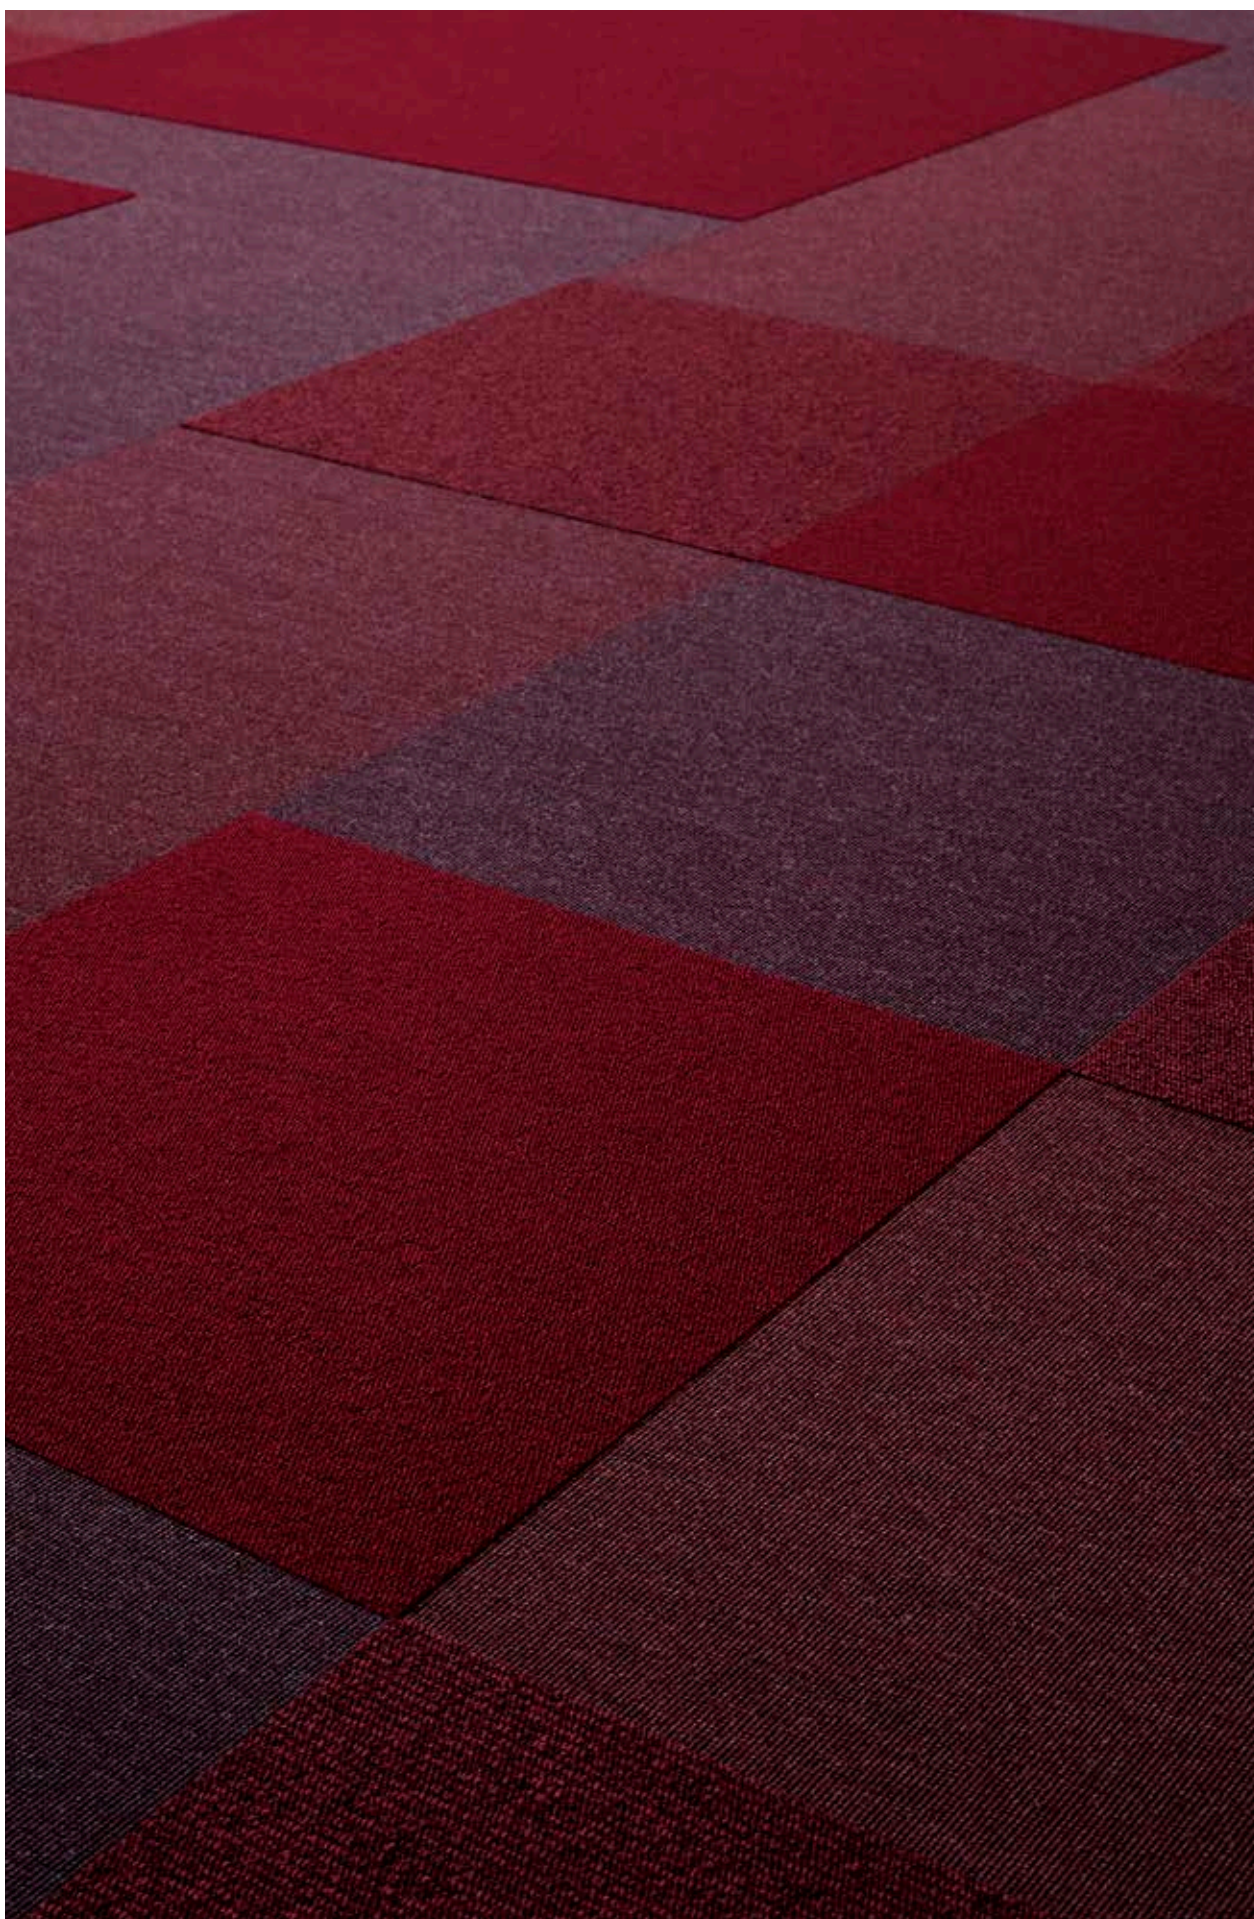

## Play with endless options

Push conventional floor design into a completely new direction. With the Figura concept, you have shape, material and colour entirely in your hands to tailor your carpet into a unique experience with new, interesting and exciting effects.

Combining the flexibility and environmental values of carpet tiles with creative and playful shapes in different materials and colours, Figura can deliver head-turning designs that will match any room and requirement.

Mix different sizes, colours and materials for fascinating expressions with depth and structure. Experiment with your own combinations to define areas and focal points. Go bold with powerful contrast, or create a subtle, refined ambience by using different materials in the same colour tone. Figura opens a new, fresh dimension that encourages creativity to redefine floor design.

Browse through the brochure and find lots of patterns and great ideas to get you started. Now go ahead and play.

## The pure facts

### Technical specifications

The Figura concept comprises eight different shapes, each in 15 different qualities. The different colours and materials can be used on their own or in combination. Mix tiles and planks in different sizes for unique flooring solutions. The Figura shapes are cut to ensure perfect joints.

- Minimum order from 40 m<sup>2</sup> per shape/quality/colour
- Undisputed performance standard EN 1307
- Performance classification to fit any need: extra heavy use
- Dispatch within 4 weeks from receipt of orders below 200 m<sup>2</sup>
- Please check delivery time for orders above 200 m<sup>2</sup>

### We are here to help

If you need help creating your pattern, we are with you all the way and can help with pattern inspiration and guidance and in some instances layouts made by our in-house design team to ensure that the design fits your wishes and specifications.

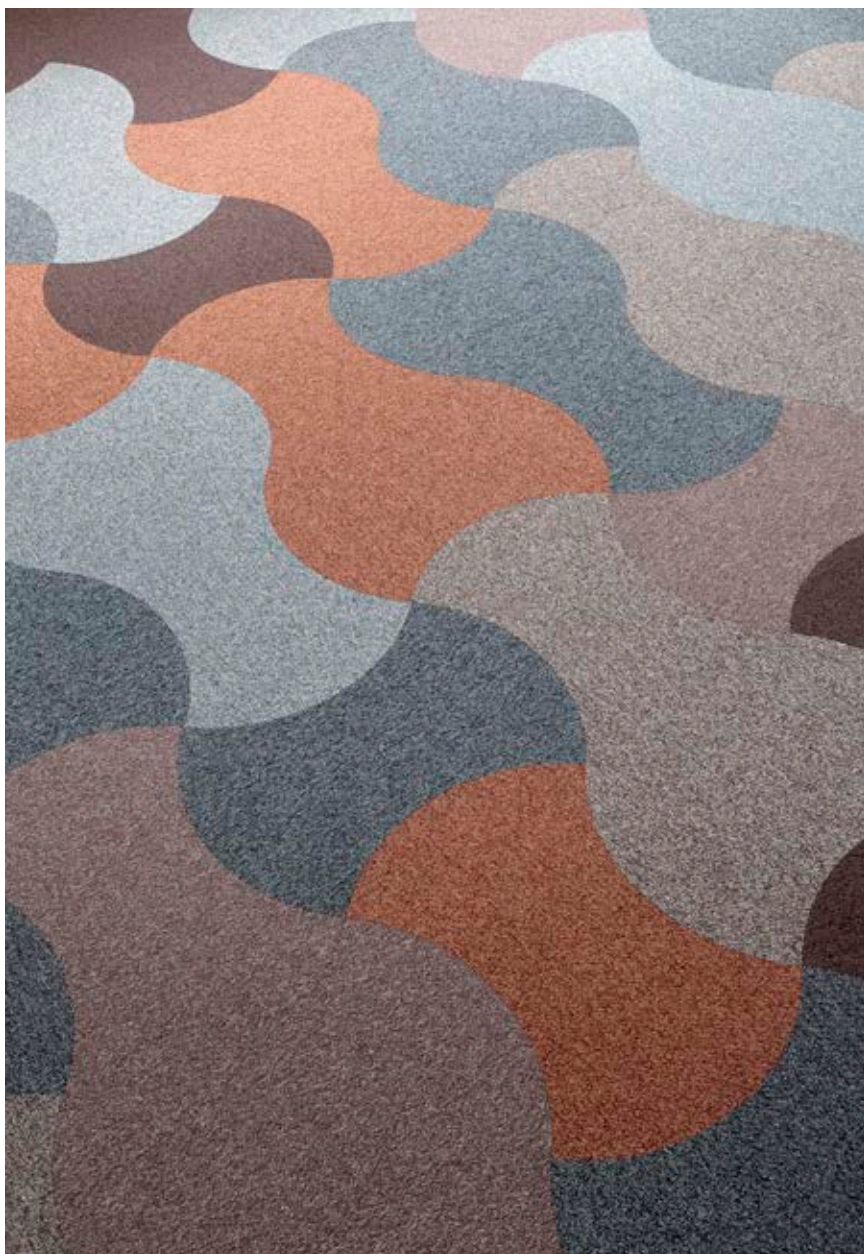

### The green choice

All Figura tiles have the patented Ecotrust 350 felt backing. This is an innovative production technique turning used water bottles into a soft, yet strong and highly durable PET felt that also holds great acoustic performance. The PET felt is both recycled and regenerable. We have climbed the sustainability ladder by having all tile backings Cradle to Cradle™ certified signifying that it is one of the most environmentally friendly tile backings on the market. Part of the Figura concept also includes qualities that are made of 100% regenerable ECONYL® yarns produced from used fishing nets.
