INSPIRED. INSPIRING.

"Art takes nature as its model." **Aristotle**

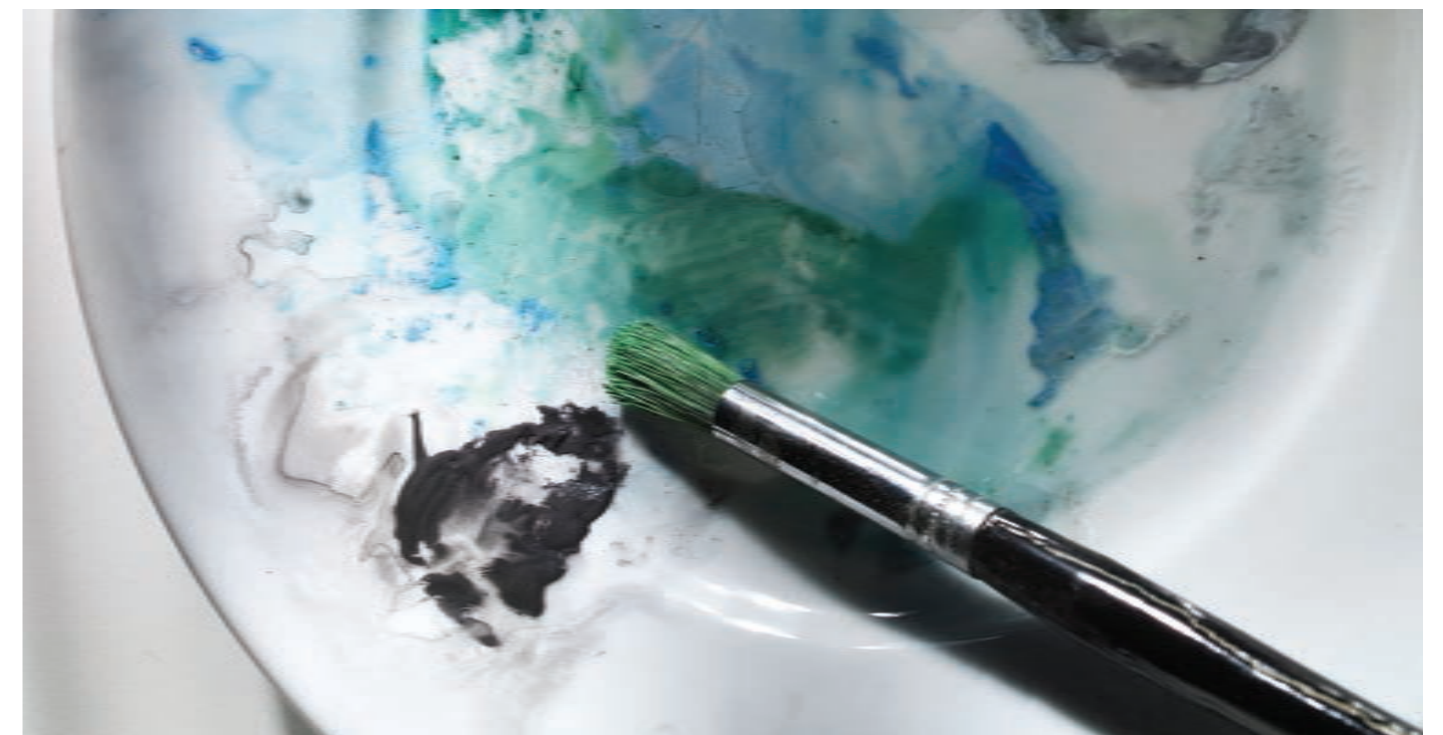

From nature's calendar to the artist's studio, from the outside to the inside, creative minds have joined to create three designs drawn from nature and reinterpreted through artistic expression. Watercolour Lesson, Drawing in Ink and Hand Sketched, each one lovingly crafted through its artist's medium: watercolour, ink and pencil sketch. Three designs, each with a story to tell.

*"How strange that nature does not knock,
and yet does not intrude."*

Emily Dickinson,
letter to Mrs J.S. Cooper

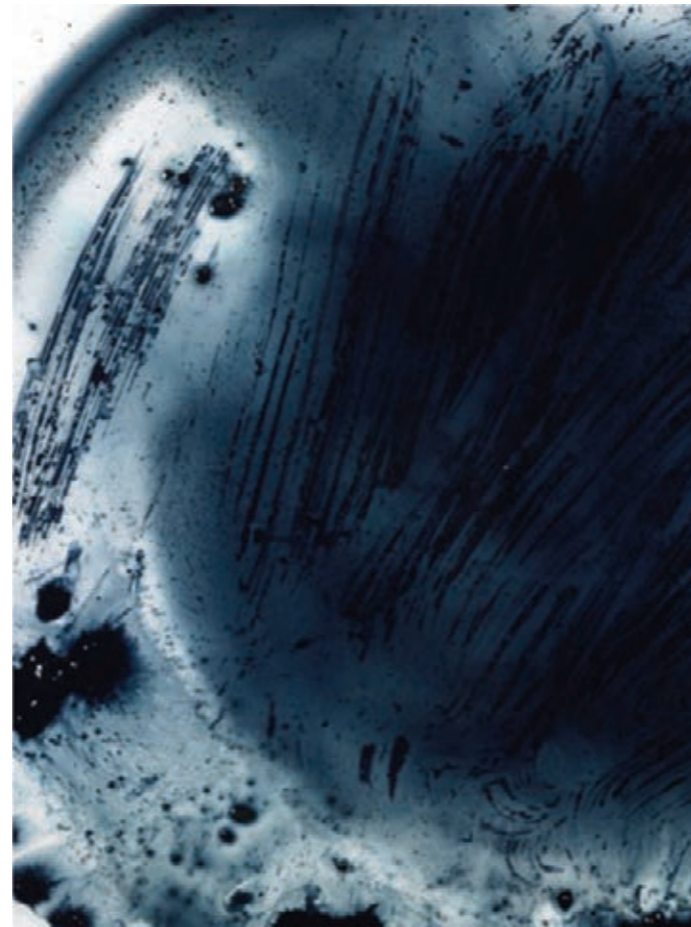

"Nature always springs to the surface and manages to show what she is. It is vain to stop or try to drive her back. She breaks through every obstacle, pushes forward, and at last makes for herself a way."

Nicholas Boileau

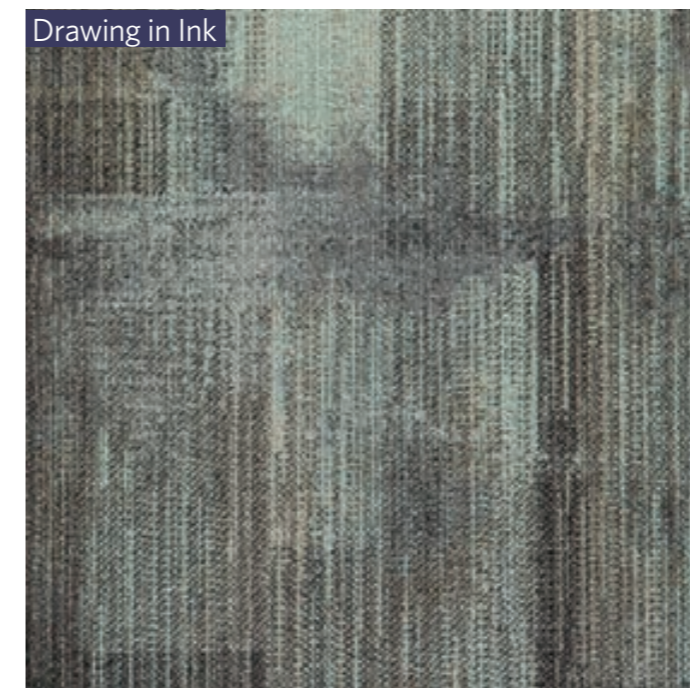

PATTERNS

Naturally Drawn features four coordinating patterns: Watercolour Lesson, Drawing in Ink, Hand Sketched and Hand Sketched Transition.

La collection Naturally Drawn comprend quatre designs coordonnés: Watercolour Lesson, Drawing in Ink, Hand Sketched et Hand Sketched Transition.

Die Kollektion Naturally Drawn umfasst vier aufeinander abgestimmte Designs: Watercolour Lesson, Drawing in Ink, Hand Sketched sowie Hand Sketched Transition.

Naturally Drawn presenta cuatro diseños coordinados, Watercolour Lesson, Drawing in Ink, Hand Sketched y Hand Sketched Transition.

HAND SKETCHED TRANSITION

The Hand Sketched design is offered with a companion, accessory design, Hand Sketched Transition. The Hand Sketched Transition design enables an effortless colour flow from one Hand Sketched colour into the next, without hard lines or distracting colour breaks.

Sometimes blending complementary colours, sometimes merging contrasting colours, Hand Sketched Transition allows you to create a smooth and continuous flow of organically changing colour across the floor plane.

Le design Hand Sketched est proposé en combinaison du design Hand Sketched Transition. Le Hand Sketched Transition permet un passage fluide d'un coloris Hand Sketched à un autre, en évitant les traits durs et la transition brutale entre deux couleurs.

Soit en mélangeant des couleurs complémentaires, soit en fusionnant des couleurs contrastées, Hand Sketched Transition permet de créer un flux doux et continu de couleurs organiques changeantes sur le sol.

Passend zum Design Hand Sketched wird das Design Hand Sketched Transition angeboten, das gelungene farbliche Übergänge von einer Farbe der Hand-Sketched-Linie zur anderen ermöglicht. So werden hervorstechende Linien oder unruhige Farbbrüche gekonnt vermieden.

Mal werden Komplementärfarben gemischt, mal Kontrastfarben verschmolzen – mit dem Design Hand Sketched Transition können Sie auf der gesamten Fläche des Fußbodens einen harmonischen und regelmäßigen Fluss von sich ändernden Farben erzeugen.

El diseño Hand Sketched se ofrece junto con un diseño accesorio, Hand Sketched Transition. El diseño Hand Sketched Transition permite un flujo natural y gradual del color desde un color de Hand Sketched hasta el siguiente, sin bruscos cortes de color entre uno y otro.

En ocasiones mezclando colores complementarios, otras veces fundiendo colores que contrastan, Hand Sketched Transition le permitirá crear una suave y continua gradación de colores que se transforman orgánicamente sobre el suelo.

FIBRE

Naturally Drawn is produced using high-performance ECONYL® yarn with

100% REGENERATED NYLON

ECONYL®
Made with 100% Regenerated Nylon

FIBRE

Naturally Drawn est produite à l'aide de fils de ECONYL® haute performance avec 100% de nylon régénérée.

FIBRE

Unsere Kollektion „Naturally Drawn“ wird unter Verwendung von High-Performance-ECONYL®-Garn aus 100% regeneriertem NYLON hergestellt.

FIBRA

Naturally Drawn se fabrica utilizando hilo ECONYL® de alto rendimiento con un 100% de nylon regenerado.

STRENGTH

Offering the same strength and lifecycle as fibre crafted from virgin polymer, ECONYL® fibre is made from a minimum of

50% pre-consumer and 50% post-consumer content

reducing resource consumption and waste.

SOLIDITÉ

Offrant la même solidité et la même longévité qu'avec un polymère vierge. Utilisation de 50% de produit pré-consommation et 50% de produit post-consommation réduit la consommation de ressource et la production de déchets.

FESTIGKEIT

Die gleiche Festigkeit und Lebensdauer erreichen ECONYL® Fasern, wie eine aus reinem Polymer gefertigt Faser. Dabei werden ECONYL® Fasern mit je 50% Pre-consumer und 50% Post-Consumer Anteil gefertigt. Dies schont den Ressourcenverbrauch und reduziert den Abfall.

RESISTENCIA

Ofreciendo la misma resistencia y ciclo de vida que la fibra fabricada a mano con polímero virgen, la fibra ECONYL® se fabrica con un mínimo de un 50% de contenido pre-consumidor y un 50% de contenido post-consumidor, reduciendo el consumo de recursos y los residuos.

BACKING

Naturally Drawn carpet tiles feature **90% recycled content cushion backing.**

To further reduce their environmental impact, Naturally Drawn can be supplied with TractionBack® for adhesive free installation.

Eliminating the need for adhesives, TractionBack® improves indoor air quality and reduces materials usage.

DOSSIER

Le dossier des dalles de Naturally Drawn contient 90% de produit recyclé. Afin de réduire davantage son impact environnemental, Naturally Drawn peut être fourni avec le système TractionBack® qui améliore la qualité de l'air intérieur et réduit l'utilisation de matériaux.

POLSTERRÜCKEN

Naturally Drawn Teppichfliesen verfügen über ein Polsterrücken aus 90% recyceltem Material. Zur weiteren Reduzierung der Umweltbelastung kann Naturally Drawn mit TractionBack® Haftbeschichtung geliefert werden. Die Nutzung von TractionBack® macht die Verwendung von Klebstoffen unnötig, die Raumluftqualität wird verbessert und der Materialeinsatz reduziert.

REVESTIMIENTO

Las losetas de moqueta de Naturally Drawn presentan un revestimiento almohadillado con un 90% de contenido reciclado. Para reducir todavía más su impacto sobre el medio ambiente, Naturally Drawn se puede adquirir con TractionBack® para una instalación sin adhesivos. Eliminando la necesidad de utilizar adhesivo, TractionBack® mejora la calidad del aire en espacios interiores y reduce el uso de materiales.

TOTAL RECYCLED CONTENT

Naturally Drawn features up to 26% recycled content including up to 6% post consumer content.

LE TOTAL DE PRODUIT RECYCLÉ

<26% Pré-consommation, 6% post consommation de matériaux recyclés sur le poids total du produit.

GESAMT RECYKLINGANTEIL

Das Gesamtgewicht enthält 26% Pre-Consumer Recyclingmaterial und zusätzlich 6% Post-Consumer Recyclingmaterial.

CONTENIDO RECICLADO TOTAL

26% de contenido reciclado preconsumidor y 6% de contenido reciclado post-consumidor sobre el peso total del producto.

CERTIFICATION

With Naturally Drawn you have the security of the following third party certifications:

- **Naturally Drawn is produced in an ISO14001 certified facility in Wigan, UK using ethically sourced and wherever possible, locally produced, materials.**
- **CRI Green Label Plus/GuT Certified/EPD verified**
- **All Milliken products are certified carbon neutral.**

Naturally Drawn with regenerated content fibre and TractionBack® is eligible for LEED® points.

CERTIFICATION

Avec Naturally Drawn que vous avez la sécurité de plusieurs certifications

- Naturally Drawn est fabriqué à Wigan, au Royaume-Uni, dans une usine certifiée ISO14001, avec des matériaux dont la traçabilité est attestée et, autant que possible, produits localement.
- Green Label Plus/GuT Certified/EPD certifié

Naturally Drawn avec le nylon régénéré et le TractionBack® est éligible pour les points LEED®.

ZERTIFIZIERUNG

Mit Naturally Drawn haben Sie die Sicherheit der folgenden Zertifizierungen:

- Naturally Drawn wird in einer ISO14001 zertifizierten Produktionsanlage in Wigan, England hergestellt, wobei ethisch unbedenkliche und - wenn immer möglich - lokale Materialien verwendet werden
- CRI Green Label Plus/GuT Zertifiziert/EPD überprüft
- Alle Produkte der Milliken & Company sind kohlenstoffneutral zertifiziert.

Naturally Drawn mit regeneriertem NYLON und TractionBack® ist für LEED® Punkte geeignet.

CERTIFICACIÓN

Con Naturally Drawn, puede acceder con seguridad a las siguientes certificaciones otorgadas por entidades independientes:

- Naturally Drawn se produce en la fábrica de Wigan, Reino Unido, certificada con ISO14001, utilizando materiales de procedencia segura y ética y, en la medida de lo posible, producidos localmente
- CRI Green Label Plus/Certificado GuT/Clasificado por EDP
- Todos los productos de Milliken & Company gozan del certificado de carbono neutro.

Naturally Drawn, con fibra cuyo contenido es regenerado, y con el revestimiento TractionBack®, puede conseguir puntos LEED®.

RE-USE

Responsible end of life re-use is assured with the option to return your used Naturally Drawn carpet through Milliken's 'Carpet Take Back' programme.

RÉUTILISATION

La réutilisation est assurée par la possibilité de retourner votre moquette Naturally Drawn par le programme de reprise moquette de Milliken.

WIEDERVERWERTUNG

Das Milliken Rücknahme-Programm stellt sicher, dass die zurückgenommenen Naturally Drawn Teppichmodule so umweltschonend und sozial verantwortlich wie möglich gehandhabt wird. Das Material wird durch Downcycling entweder zu Verbundkunststoffen verarbeitet oder der Teppich wird wieder verwendet - wobei die Recyclingverwertbarkeit vollständig genutzt wird.

REUTILIZACIÓN

Aseguramos una reutilización responsable de las losetas Naturally Drawn al final de su vida útil a través del programa de devolución de la moqueta "Carpet Take Back".
