THE URGE TO EXPLORE SPACE

Nature/Super Nature

At ege we are highly concerned about the environment and the nature which surround us. The Nature/Super Nature collection emanates from our fascination with nature, and through this collection inspired by nature's shapes and colours, we wish to bring nature indoors and closer to the hectic everyday life of the modern metropolis.

With designs stretching from lifelike photographic images to graphic abstracts of nature, the Nature/Super Nature collection offers you an almost infinitive range of unique interior design possibilities. The innovative fusion between photographic elements and graphic abstracts of nature makes it easy to create outstanding interiors.

Nature/Super Nature consists of two main parts, 'Nature' and 'Super Nature', each containing six unique design stories presented in a total of 12 colour themes. The themes stretch from subtle and natural shades to exaggerated and vivid expressions allowing for the creation of spaces with very distinct atmospheres. The versatile combination of designs enables a wide range of applications; from large open spaces to intimate areas and hallways.

The Nature/Super Nature collection is a truly contemporary and unique interpretation of nature by ege.

Scandinavian Lace

Chilly whiffs of wind gently blow through the forest while peaceful sounds of nature catch your ear, and your senses fill with a rustic scent of nature. You have found a peaceful spot in a beautiful forest.

In the early morning mist, nature's colours turn into fading greys. Forceful elements of nature, such as stone and wood, are beautifully combined with delicate, natural ornaments to create a sophisticated expression. Scandinavian greys and browns with a touch of gold and copper leave a classy, yet feminine impression.

Faded Bloom

As the seasons change, nature's pretty flowers run the gamut of colour, from the bright greens of summer to the faded neutrals of fall and the bare, cool branches of winter.

Based on a simplified, graphical flower theme, faded bloom is an informal, humorous and at the same time optimistic design story, created in neutral colours such as grey and brown combined with light touches of nature's own expressive pastels.

Shady Jungle

Deep inside a densely grown jungle a mystery unfolds, which is beautiful, rich and full of life. Large-leafed jungle plants combined with organically shaped branches add a sweet and sophisticated touch to the graphical look. Exotic jungle inspiration, reflected through decorative paper cut designs, leaves an organic, yet stringent and contemporary impression.

Let yourself be inspired by a subdued palette in beautiful shades of green and brown. Nature's own colours in balance and harmony will undoubtedly leave a lasting impression of nature – with a classic, yet modern feel.

Havanna Lounge

Outside, the city passes through in fast-paced motions to the sounds of buzzing crowds. Inside, the stylish lobby provides a perfect place to unwind. Here, an encounter is staged between the pulsating life of the metropolis and the peaceful tranquillity of nature.

A masculine and unsentimental interpretation of flowers and delicate ornamental work. A true lounge expression of dark fancy wood in shades of brandy and brown, beautifully decorated with red details. Geometrical design elements have been combined with circular shapes to create a stringent and modern style. A space to recharge.

Rosy Baroque

Impressive, architectural works of art, reminiscent of baroque gardens at Versailles, and clusters of the most beautiful rose bushes embellish the garden and together create a powerful, yet feminine and romantic ambience. Classical features reinterpreted with scrolls, photographic roses and dot designs.

Dreams are flourishing and poems spin around in the air, as you stroll through the vigorous garden filled with a delicious fragrance of velvety-soft roses. A new dimension is added to the classic rose, creating a modern expression. Combined with glowing shades of feminine beige, pink and plum and light touches of gold and pastel green, a new baroque style is created.
