

CONSEQUENCE 2.0
Upshot

Milliken™

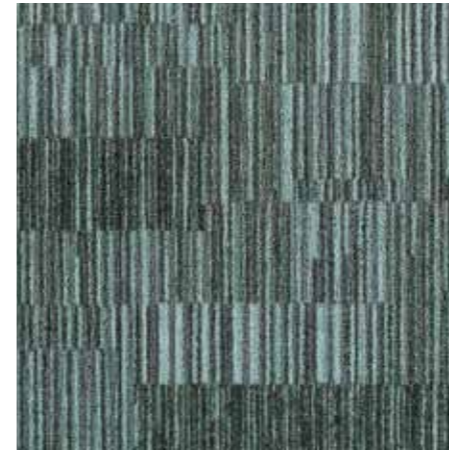

INSPIRED. INSPIRING.

Any single piece of a bird's nest is weak. But together, they form a constellation of tiny junctures that, as one, can withstand the strongest winds and the heaviest rain. Consequence builds upon a multitude of simple lines to form a design that is textural, dimensional and naturally refined.

Consequence Patterns

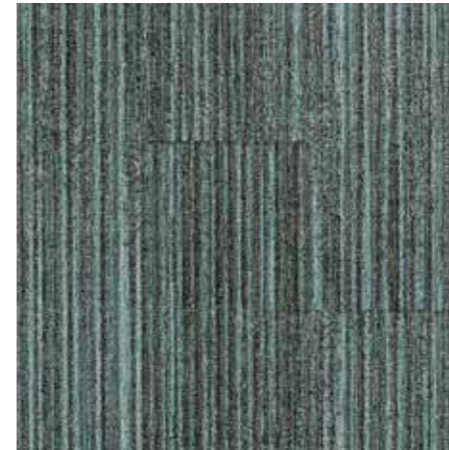

Consequence 2.0 features six coordinating designs. This brochure presents the Upshot design. Sequel, Spin Off, Part Two, React and Effect are presented in separate brochures. The designs below are shown in the Solace colour.
