

The best “low cost” artificial grass on the market. Nobody gives so much for so little

In 2008, SUMIGRAN launched the first ever “low cost” artificial grass for landscaping and decoration. Thus the first version of IBIZA artificial grass was born. Year after year we have consistently been evolving the concept of “low cost” artificial grass for the better, creating an even more affordable product with each new development, while at the same time maintaining its quality and great appearance

IBIZA is artificial grass made from a combination of straight and curly monofilament yarns, with 4 different colour tones ( by mixing different shades of green and sand ), through which a greater realism and naturalness is achieved, with a total height of 22 mm

Its reasonable price is not incompatible with quality, as the monofilament yarn used in its construction has a special “micro-strips” shape to favour recovery after being stepped on. Further benefits to buyers include fibres which have undergone a matte treatment, which is usually reserved for superior ranges, so that makes it really fantastic value for money. Last but not least, the materials used reduce reflection and unnatural shine, which is a great attribute for sunny and warm climates like in Spain, Italy and the South of France

Today it can be safely said that IBIZA artificial grass by SUMIGRAN is the best “first price” model that exists on the market

This superb artificial grass is suitable for terraces, exhibitions, temporary architecture, window dressing, urban landscaping, roundabouts, medians, or any other purely decorative application

DENSITY
14700 stitches / m2

APPEARANCE

PILE WEIGHT
551 grammes / m2

SHAPE OF YARN

PILE HEIGHT
20 mm

A CLOSER LOOK

LEVEL OF USE
Intense, it is going to be stepped on continuously

TYPICAL USES
<ul style="list-style-type: none"> <li>gardens of apartment block communities</li> <li>community pools, etc...</li> </ul>

ICONS

High, it will be stepped on frequently
--

<ul style="list-style-type: none"> <li>private gardens</li> <li>swimming pools</li> <li>any other frequently walked-on area, etc...</li> </ul>
--

--

Medium, you will step on it just occasionally
---

<ul style="list-style-type: none"> <li>private gardens</li> <li>terraces / penthouse apartments</li> <li>swimming pools</li> <li>other less frequented areas, etc...</li> </ul>
---

--

Low, merely decorative

TECHNICAL CHARACTERISTICS OF THE YARN

DTEX	7500
Filament configuration	8 straight + 8 curly
<b>Straight yarn</b>	
Structure	Monofilament
Shape	Micro-strips
Composition	Polyethylene
Colour shade	Two-tone green ( two colours )
Matte treatment	Yes
UV stabilised	Yes
Respectful with the environment	Yes, free from lead and cadmium
<b>Curly yarn</b>	
Structure	Textured
Composition	Polypropylene
Colour	Beige and green

TECHNICAL CHARACTERISTICS OF THE BACKING

Primary support composition	Polypropylene
Primary support layers	1
Reinforced with net	No
Primary support weight	120 grammes / m2
Support coating	Latex
Support coating weight	900 grammes / m2

GENERAL TECHNICAL CHARACTERISTICS

Type of manufacturing system	Tufted cut pile + curly yarn
Gauge	3/8"
Stitches per m2	14700 ( +/- 10% )
Stitches rate per 10cm	14 ( +/- 1 )
Pile height	20 mm ( +/- 5% )
Total height	22 mm ( +/- 5% )
Pile weight	551 gr / m2 ( +/- 10% )
Total weight	1671 gr / m2 ( +/- 10% )
Dimensional stability	+/- 0,60 %
Water permeability	40 litres / minute / m2
Installation	Floating without silica sand infill ( optional )
