

Mediterranean lushness. High-class decoration at the most affordable price

In the pursuit of on-going improvement and excellence SUMIGRAN puts luxury and style within reach of every consumer. CAPRI artificial grass enables any client, regardless of their budget limitations, to gain access to the very best in top-class decoration at the lowest and most affordable price possible

This innovative material is made up of fibres of 35 mm in height whose density is 22,050 stitches / m² It uses the "flat tape" yarn shape in 4 different colour shades (using the most advanced colour additives currently on the market) and a yarn weight that exceeds 1,300 gr / m². The combination of these amazing technical characteristics ensures a very unique, natural looking artificial grass (its fibres are also treated to give a matt finish). Our careful, meticulous selection and use of only the best, softest yarn gives this outstanding product an extremely comfortable and pleasant texture

In fact, CAPRI artificial grass is a perfectly suitable model for any garden in which a reasonable price, smoothness and a leafy, natural look are the key requirements of the client
