

Aluminium profile

**Composition:** 6063 aluminium alloy with T.5 treatment

**Weight:** 281 grammes / linear meter

Joint between profiles

**Composition:** Plasticised PVC of SHORE A95 hardness

**Weight:** 80 grammes / linear meter

**Drainage perforations:** 6x22 mm  
Distance between perforations: 22mm

Rubber upper insert

**Composition:** Thermoplastic rubber

**Weight:** 150 grammes / linear meter
