

Technical specifications

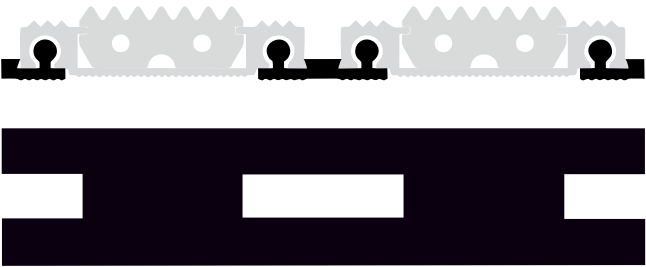

Aluminium profile

Composition: 6063 aluminium alloy with T.5 treatment
Weight: 281 grammes / linear meter

Joint between profiles

Composition: Plasticised PVC of SHORE A95 hardness
Weight: 80 grammes / linear meter
Drainage perforations: 6x22 mm
Distance between perforations: 22mm

Rubber upper insert

Composition: Thermoplastic rubber
Weight: 150 grammes / linear meter
