

# Technical specifications

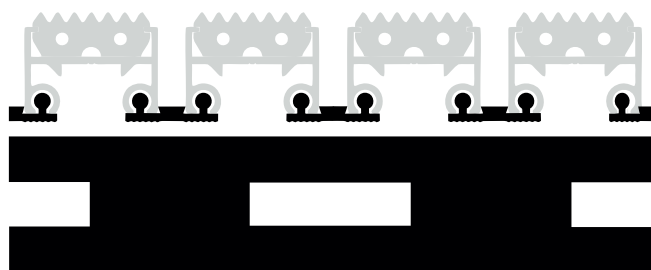

## Aluminium profile

Composition: 6063 aluminium alloy with T.5 treatment

Weight: 281 grammes / linear meter

## Joint between profiles

Composition: Plasticised PVC of SHORE A95 hardness

Weight: 80 grammes / linear meter

Drainage perforations: 6x22 mm  
Distance between perforations: 22mm

## Rubber upper insert

Composition: Thermoplastic rubber

Weight: 150 grammes / linear meter
